M. JULES FERRY DEAD

Sudden Demise of an Eminent French Statesman.

ALL THE REPUBLIC MOURNS.

Germany Not Disheartened at the Rejection of the Army Bill—Will Probably Pass the Third Reading—Attempt to Destroy Minister Porter's Residence, Rome—Other Foreign News.

PARIS, March 18.—Jules Ferry, president of the senate, died suddenly yesterday of heart disease. All the members of his family and Mme. Floquet were beside him to the last. His last few minutes were apparently painless. He was 61. The news of Mr. Ferry's death astounded the city. No other event since Gambetta's death, has made such deep impression. As a senator he was a great power. It was only the other day he was chosen to preside over the august body after the Panama scandals caused the resignation of his predecessor.

The French papers, without exception, express opinion that M. Ferry's death is of grave consequence to the republic.

ATTEMPT TO BLOW UP A PALACE.

Bomb Exploded in Minister Porter's Residence in Rome.

ROME, March 18.—At 6:30 o'clock Friday morning a bomb exploded in the Ancini Mattei palace, the residence of United States Minister Porter. The explosion of the bomb did but slight damage to the building, and nobody was injured.

The building is occupied by no other families besides that of United States Minister Porter.

As a similar outrage was perpetrated in the same building in 1892, and as Mr. Porter only engaged the building for occupation in the closing days of that year, it is believed that the fact of the palace being inhabited by the American had nothing to do with the outrage, but the motive for causing the explosion was to gratify a desire for vengeance upon the proprietor of the palace. Irrespective of whether the residents of the palace were injured or not. This was the motive suspected at the time of the first explosion and there is no reason to take a different view now.

The United States minister called at the foreign office during the afternoon and told Signor Brin, minister of foreign affairs, he was convinced that the explosion was not intended to injure him or to affront the United States government. He expressed his regret that such an embarrassing incident had occurred and assured Signor Brin of the sympathy of the United States government and its willingness to let the affair pass unnoticed. Signor Brin thanked him for his visit and two hours later returned the call to inform him that the Italian government felt the deepest regret on account of the inconvenience caused to him and his family by the explosion.

Anti-Slavery Matter.

BRUSSELS, March 18.—The Independent Belge states that the pope has contributed 50,000 francs (nearly \$10,000) to the expenses of the expedition for the relief of Captain Jacques, proposed by the anti-slavery society. Captain Jacques, who is in a perilous position in Albert island, in Lake Tanganyika, will be supplied with cannons to enable him to continue his crusade against the slave hunting. The relief expedition under Captain Descamps, owing to the timely assistance of his holiness, will not be able to leave for the Cape of Good Hope April 6. Count De Merode-Westerloo, the minister of foreign affairs, has notified the British and German government that the Arabs are supplied with arms from the territories under their protection.

Drouth and Plague.

CAIRO, March 18.—Prolonged drouth is causing much damage in the north of Africa. There has been no rain in the Vilayet of Barca for five months, and Tripoli has suffered almost as badly. Sickness is rife, and the plague prevails everywhere, due to poisonous emanations from putrifying carcasses. One half of the population of Bengazi, the chief town of Barca, is dead, among the victims being the governor and the cadi of the district and many Europeans. The Italian consul and all of the rich Europeans have fled to Egypt or Malta.

Not Disheartened.

BERLIN, March 18.—The rejection of the army bill by the reichstag, which was almost unanimous at the second reading yesterday, does not dishearten the government. It was not expected that the bill would pass at a preliminary reading. The third reading will take place after Easter, and it is expected that it will then be accepted, as amended by the National Liberals. Meanwhile the government will use its power to win over the opposition, and there is no doubt of its ultimate success.

Lord Salisbury Better.

LONDON, March 18.—Dr. Douglass Powell, physician to Lord Salisbury, reports that his distinguished patient is somewhat improved. Lord Salisbury is at Hatfield, where Princess Elizabeth

received the news of Queen Mary's death and her own accession to the throne of England.

How's This For Superstition?

FRANKFORT-ON-THAINE, March 18.—The city council has decided to omit the number 13 entirely at the projected renumbering of the streets and houses, because of the various superstitions connected with the number.

Found an Infernal Machine.

LONDON, March 18.—A workman found an infernal machine in a gravel pit at Blackheath, seven miles from Charing Cross terminus. It was handed over to the police.

In Honor of William I.

BERLIN, March 18.—A dispatch from Goerlitz, Silesia, states that the foundation stone of the monument of the Emperor William I was laid in the presence of an immense crowd, composed mainly of peasants from the surrounding country, who thronged to witness the proceedings and manifested great enthusiasm.

Robbed of \$15,000 Worth of Jewelry.

WORCESTER, March 18.—The residence of Baron Von Schweder was entered by thieves while the family were at dinner. About midnight the family missed jewelry worth \$15,000. Police are scouring the country. The baron's brother married Miss Donoghue of San Francisco.

Labor Day in Berlin.

BERLIN, March 18.—Labor day passed off without any trouble whatever. The socialists were loud beforehand, but the procession of unemployed was an orderly one.

Forbidden by the Police.

ROME, March 18.—The meetings that were announced to be held to protest against the recent bank scandals have been forbidden by the police.

Cablegrams.

La Lanterne says Magistrate Franqueville is about to give up his connection with the Panama scandal investigation, as he is tired of it.

Colonel Von Wadenbruch, the director of the German military academy, is dead. He was prepared to celebrate Prince Bismarck's birthday on April 1.

Queen Victoria will leave Windsor on Monday and will arrive in Florence on Thursday, where the Villa Palmieri will receive her majesty and suite.

The ex-Empress Eugenia of France, who is in London, spends most of her days in solitude praying at the tomb of her husband and reading and making fancy work.

The visit of the German emperor to Queen Victoria at Florence will occur after the festivities in this city. The emperor will probably reach Florence March 27, and he may be accompanied by the King and Queen of Italy.

The Russian vote on the amendment to the Bulgarian constitution will not, in all probability, limit the scope of Russian action. The czar is reported to have said recently, "My father did not deliver Bulgaria from the Turkish yoke in order that it might fall into the hands of a Roman Catholic dynasty of Orleans and Bourbons."

A HARD, LONG FIGHT

Is What Corbett Expects When He Battles With Charlie Mitchell.

INDIANAPOLIS, March 18.—In an interview here yesterday James J. Corbett said:

"The fight between Mitchell and myself will be the first international fight that has ever taken place in this country where people could sit down and see it as if they were in a theater. I hear that Mitchell is in better condition than he ever was in his life. The treadmill has improved him. I never saw him fight, but I know him to be shifty and tricky, a hard hitter and a good general. He is to be the first man I fought near my own weight. The fight between us will be a hard one and I expect it to last long."

"Will Sullivan ever fight again?" "I think not. He is done. It made me sore at first to hear his talk about me and say he was drugged and so on, but I don't mind it now. I don't have to come to terms with any club. They must come to mine. I didn't blow in my money, and I am more independent than the clubs. I have more money than any of the clubs, and I don't propose to fight for a cent less than I am worth. I shall train three months before the fight, on Willowdale farm, in this state."

To Investigate Prize Fights.

COLUMBUS, O., March 18.—The following echo of the Volkes-Bolan prize fight was heard in the halls of legislation yesterday morning.

Representative Martin of Madison county offered a resolution reading thus:

WHEREAS The daily press contains an account of a prize fight which is said to have occurred in this city of Columbus on the night of March 16, 1893; and, WHEREAS, Prize fighting is prohibited by the laws enacted by the general assembly of the state of Ohio; and,

WHEREAS, It appears that the fight above mentioned took place openly and in bold defiance of the laws and in open defiance to the authority and dignity of this general assembly; therefore, be it

RESOLVED, That a committee of two members of the house of representatives and one member of the senate be appointed to ascertain whether a fight took place as above in violation of law, and if it took place, ascertain why the authorities charged with the execution of the laws failed to perform their duties. Said committee shall report to this general assembly at the earliest practicable day with such recommendation as they may think proper.

Griffin and Dixon Matched.

NEW YORK, March 18.—Jimmy Carroll announced yesterday afternoon

that \$2,000 had been placed in the hands of D. H. Blanchard of Boston, to bind a match for Johnnie Griffin with George Dixon, to weigh 120 pounds at 10 o'clock or 123 at 3 p. m. on the day of the fight. The Griffin party, according to Carroll, will bet from \$100 to \$100,000 on Griffin.

Dempsey Again to Enter the Ring.

NEW YORK, March 18.—There is no doubt that Jack Dempsey, "The Nonpareil," who has the reputation of being the bravest man who ever entered the prize ring, intends to take up the business once more.

THE ANN ARBOR STRIKE.

It is Still On and Both Sides are Anxious for a Settlement.

TOLEDO, March 18.—General Manager Ashley of the Ann Arbor has issued orders to have freight cars offered to the Lake Shore and the Pennsylvania railroads to see what attitude the officials and brotherhood would assume.

Chief Arthur of the brotherhood talks as if the men on all the local connecting lines would stand by the strikers. He says he has not ordered a general strike, but that the men will act without any explicit orders. The cars had not been offered so far.

Grand Chiefs Arthur and Sargent of the Engineers' and Firemen's Brotherhood have furnished a lengthy statement giving the reasons for refusing to accept the terms of settlement of the Ann Arbor strike as agreed upon between President Ashley and William Kirkby, state railroad commissioner.

The principal objection is a clause in the agreement, inserted by Kirkby, that the strikers must make application in writing for their old places; applications to be considered in the order received.

An amendment that the men be reinstated without prejudice was rejected by President Ashley. Nothing was left but to continue to strike.

Both Mr. Arthur and Mr. Sargent say they are still willing to leave the question in dispute to any three managers in Toledo or elsewhere, and abide by the decision.

Vice President Henry Ashley and the counsel for the boycotted Ann Arbor road went to Detroit yesterday and were granted an order by Judge Taft of the United States supreme court restraining Chiefs Arthur and Sargent from issuing orders for a general strike or boycott.

The Ann Arbor people, it is reported, will arrest every engineer refusing to move his cars and prosecute him under the law relating to common carriers. Reports of judiciary here say the restraining order is a new precedent in such cases.

The crowning feature of the difficulty came last night when the railroad company entered suit jointly against Chiefs Arthur and Sargent for \$300,000 damages incurred by the strike.

Loss in the Toledo Fire.

TOLEDO, March 18.—The loss on Wheeler's Opera House, which burned yesterday morning, was \$80,000 with \$37,000 insurance. Other losses are as follows: William Wolf, cigars, \$5,000; Gilbert Brothers, shoes, \$15,000; William Olchler, crockery, \$7,000; Peter Sattler, harness, \$7,000; T. D. Parker, provisions, \$7,500. The walls fell at 2 a. m., carrying down with them a large number of telegraph and electric light wires. William Ciosek was caught by a wire and thrown to the ground, suffering a dislocated shoulder.

Chicago Railway Troubles.

CHICAGO, March 18.—The demands of the Santa Fe engineers and the Grand Trunk conductors and trainmen for an increase of wages were acted upon by a special committee of the general managers' association Friday afternoon, but their decision will not be announced until the next meeting of the association, probably some time next week. Railroad officials assert that they have no fear of a strike although there is little doubt that the decision will be against the men.

Trustees' Resignations Demanded.

JEFFERSONVILLE, Ind., March 18.—A meeting of citizens was held in Clarksville Thursday night and resolutions were adopted demanding the resignation of trustees Heetzach, Wells and Walker, whom the citizens charge with defeating the passage of the bill giving them a charter for the town. A vote of confidence in Representative Daily and Senator Barnes was unanimously given.

Is This a Solution?

NEW YORK, March 18.—Silver has begun to take the place of gold in the shipments abroad. Handy & Harmon, Brokers, will today ship 175,000 ounces; J. W. Selman & Company, 120,000 ounces; Nesslag & Colgate, 40,000 ounces; and Zimmerman & Forshay, 35,000 ounces. The steamship Saale will take the total and 35,000 Mexican dollars.

Immigration This Year.

NEW YORK, March 18.—The Ellis Island officials say immigration this spring will exceed by many thousands that of any spring. Steamship agents say that between 66,000 and 68,000 immigrants are waiting to come here in the second cabin and steerage. Over 20,000 Italians will arrive in the next month.

Harrison's Duck Hunt.

INDIANAPOLIS, March 18.—Ex-President Harrison has written to a friend that his duck hunting is not a success and that he will return to this city today. He proposes to begin the preparation of his book at once. It is probable that two years will elapse before the book will be issued from the press.

Anti-Pinkerton Bill Passed.

MADISON, Wis., March 18.—The assembly has passed the anti-Pinkerton bill, and the legislative committee in charge of the world's fair appropriation reported in favor of granting \$100,000.

A \$400,000 SHORTAGE.

Fast and Systematic Robbery of the Mexican National Bank.

GUANAJUATO, Mex., March 18.—A sensation has been caused by the arrest and imprisonment of Felipe Osante, a prominent and wealthy merchant of this city, on the charge of being connected with the recent defalcation in the Guanajuato branch of the National Bank of Mexico.

The shortage was first discovered several days ago, and experts were at once placed at work upon the books of the bank. The amount of shortage is now placed at \$400,000. There are a number of prominent people implicated in the systematic robbery, and all are now under surveillance. They will be arrested when the proper time arrives.

The business men of Mexico are very suspicious of all banking institutions, and the startling disclosures in connection with the branch bank in this city are having their effect upon banking affairs in Mexico.

THE NEW IRON PIPE COMBINE

Will Comprise Ten of the Largest Foundries—Capital \$20,000,000.

CINCINNATI, March 18.—Those firms composing the new iron pipe combine are holding a meeting here. It is a big thing and is proving unwieldy. The combination, which has been in contemplation for some time, will be completed at the present meeting and the organization effected as the American Pipe and Iron company, will comprise 10 of the largest iron and steel foundries in the south and west, with a capitalization of \$20,000,000.

It is said that the combination will control all the cheap pigiron of the south and west and that the eastern foundries, which depend on the south for this class of iron, will have to close up. It is a fight between the eastern and western and southern concerns. It is expected that the price of iron pipe will be increased from \$4 to \$6 a ton immediately upon the consummation of the combine.

MARCH ON ITS METTLE.

Storms in the West Equal in Severity Those of Midwinter.

CHICAGO, March 18.—Reports were received here Friday morning of a blizzard and snowstorm in the western and northwestern states that extended as far as the Rockies. In Kansas and Nebraska the storm is particularly severe. All trains are delayed and traffic generally demoralized.

No United States District Attorney.

INDIANAPOLIS, March 18.—Smiley Chambers, United States district attorney, quitted office yesterday and telegraphed the authorities at Washington that he was out, and it was in order to name his successor. It appears that Judge Baker has ruled that the term of the district attorney was for four years and not "till his successor was appointed," and that the court refuses to recognize him as the legal officer after the expiration of his term, which closed yesterday. The federal court adjourned, as there is no attorney for the court but, should an emergency arise, one will be appointed. The term of Marshal Dunlap will expire on Monday and he will retire at that time, leaving the court without either attorney or marshal.

Returned, Settled Up and Resigned.

ANDERSON, Ind., March 18.—Benjamin Plackard, the missing trustee of Van Buren township, has returned, and not only made full settlement with the county commissioners, but tendered his resignation. His accounts are straight, as far as has been ascertained. The reason assigned by the bondsmen for being so anxious to be released from his bond is that he was too much addicted to drink. The commissioners have appointed Stephen Irwin as his successor.

Will Re-penal the Bait Act.

ST. JOHN'S, N. F., March 18.—The Newfoundland government has decided to repeal the bait act, passed six years ago to prevent the selling of bait to the French, thus enabling Newfoundland to compete with France in fishery markets, as the French give bounties to their fishermen. This course, it is thought, is the only way for Newfoundland to offset the French, as they are absolutely dependent upon our bait.

Money Burned.

TIPPECANOE, O., March 18.—Six hundred and sixty-five dollars in currency, drawn by Township Clerk Filburn to pay teachers was burned up by an explosion of a lamp on the desk where the money was placed. No one was in the room at the time.

THE LAKE TRADE.

This Year It Promises to Break Previous Records.

DULUTH AS A WHEAT CENTER.

The Young City Has Surpassed Chicago in That Respect and Promises to Steadily Increase the Lead—Navigation on Lake Superior May Not Open Until Well Into May.

CLEVELAND, March 18.—Two factors contribute to make the outlook for next season's business on the lakes exceptionally good—the world's fair and the long and severe winter just closing.

At no time in five years have the stocks of coal at all the upper lake ports been as low as now, and from the opening of the season heavy shipments are expected from all Lake Erie points. Indeed, if the spring should be late and Lake Superior navigation not open until well into May, there is some reason to fear a coal famine.

Advices from West Superior, Wis., show that the stock there is all sold and going forward to consumers rapidly. The St. Paul and Western docks there, which received 200,000 tons of coal last season, have less than 4,000 left. The Lehigh has the most of 60,000 tons of soft and 8,000 tons of hard, but every ton of it is sold. The Duluth situation is still more critical, and railway officials are uneasy over the scarcity which, in event of protracted cold, threatens to cripple traffic.

Demand for coal tonnage will be very brisk from the opening of navigation. The docks here, at Ashtabula, Sandusky, Buffalo and other points, are preparing for large shipments, and it is not unlikely that 30 per cent more coal will go up the lakes this year than last. Of this the Ohio coal roads will get their full share, and may be expected to prosper accordingly.

The package freight situation can not be outlined so distinctly in figures, but the glut of passenger traffic at Chicago is certain to handicap the freight department of all roads heavily and result in a much larger proportion of the business going by boat.

One well-informed vessel man remarked yesterday that the Chicago railways would do well if they handled half their usual through freight, and predicted that every vessel arranged for carrying package freight would be found in the Chicago and Buffalo trade before the middle of June.

These two factors, taken with the large grain stocks at Chicago, Duluth and West Superior, will assure a large traffic, even if the ore trade, as now seems probable, is rather dull. Over 38,500,000 bushels of wheat and 8,500,000 of corn are in the elevators or stored in the holds of vessels waiting for the opening of navigation.

Duluth, which in the reports also includes West Superior, Wis., for the first time on record holds more wheat than Chicago, having 16,000,000 bushels as compared with the Windy City's 14,500,000. This really marks the departure of Chicago's greatness as a wheat center. The head of Lake Superior has vanquished the head of Lake Michigan, and the development of the great wheat belt in the northwest will steadily increase the lead of Duluth over her one-time patronizer. In corn, however, Chicago remains easily first, with 6,600,000 of the 8,500,000 now reported in store.

SQUIRE ABINGTON DYING.

The English Backer of Charlie Mitchell Dying of Pneumonia.

NEW ORLEANS, March 18.—Squire Abington, the English backer of Charlie Mitchell, the pugilist, is reported to be in a dying condition here. Several physicians are at his bedside, but they believe he cannot recover. Squire Abington is slowly sinking under an attack of pneumonia. He is delicious, and doctors consider his case hopeless. He intended to sail for England next week.

ATTENTION, DEMOCRATS.

The Democrats of Mason County are requested to assemble within their respective voting districts and at the places used as polls at the last November election, Saturday, March 25, 1893, at 2 o'clock p. m., and select a member of County Democratic Executive Committee, to serve two years or until their successors are chosen, by order of the State Central Committee.

The committee selected by said meetings will meet at court house, Maysville, Ky., Saturday, April 1, 1893, at 2 o'clock p. m., for purpose of selecting a Chairman and Secretary for said County Executive Committee.

The present committee will preside at the temporary organization of meetings held within voting districts in which they now reside; and in such districts as do not contain a member of present Executive Committee the assembled Democrats will select their own temporary Chairman.

Remember the importance and benefits of organization, and hold meetings in your respective voting districts without fail; and select the most active and effective Democrats only.

J. N. KEROX, Chairman.

G. W. ROGERS, Secretary.

If the Lexington Leader thinks Maysville's electric street railway can be secured at a bargain, Editor Roberts should come down and try to buy it.

The old chestnut seems to be coming up again—"Capital Removal"—that's the name it has, but the true meaning is "frolic," says the Western Argus. And Lexington always foos the bill.

COLONEL ELLIOT F. SHEPARD, of the New York Mail and Express, was a "conspicuous" figure in the gallery of the Senate on Inauguration Day, and this week he dined and dined Mr. Herbert, Secretary of the Navy. Following this comes the report that he will soon change the politics of his paper, and come out in support of Cleveland. Next!

THE Senate resolution to adjourn the Legislature sine die May 11 did not meet with favor in the House. The House members who opposed it pleaded the large amount of important business yet wholly untouched and which must be first transacted before adjournment can safely occur. Now if the lawmakers would just stick to their work and transact this important business, they will be forgiven for not adjourning.

GOVERNOR BROWN'S REPLY.

He Says He Has Stirred up "a Nest of Vipers." But He Will Continue to do His Duty.

Governor Brown's long-looked-for reply to ex-Governor Buckner's open letter was given out Thursday. It covers thirty-two pages of type-written matter, chiefly reviewing the contracts with the prison lessees. It seems that the main question at issue between the Governor and the ex-Governor is the proper construction of these contracts, and this alone can be decided by the courts, where it soon will be taken. In closing Governor Brown says:

"My oath of office was to 'take care that the laws be faithfully executed.' When the letter of the law stares the public official in the face, I do not believe in shirking the responsibility of obedience to its command by taking refuge under any technicality, or excusing myself by the plea of necessity or humanity. No man is greater than the law. Nothing excuses a deliberate disregard of its directions. The officials of the State are not autocrats, but public servants. 'A public office is a public trust.' The creature should not assume to be greater than his creator. Assumption of authority or neglect of official duty often brings disaster to the State and stains its escutcheon. The related horrors of convict life were the legitimate offsprings of autocracy in officials and unrestrained greed in contractors.

"It has been my misfortune, in my official pathway, here and there, to disturb a viper, and occasionally to arouse a nest of them. I expected this. I have, with perfect composure, heard their hissings, but am not conscious of having been harmed by their poisonous fangs. In the sounding platitudes of Gov. B.'s letter I believe I catch familiar echoes, arousing a suspicion in this matter that 'the voice is Jacob's voice, but the hands are the hands of Esau.' I here dismiss the subject, with the prediction that the suit to be instituted for the State will accomplish nothing. I am in a minority of the Board of Sinking Fund Commissioners, and powerless, even if anything could be accomplished under different conditions. The contracts discussed are ropes of sand. The lessees are in the saddle, booted and spurred. Their indebtedness is increasing at the rate of about \$1,500 every month.

"In the future, as in the past, I shall be heedless of ferocious criticism and vicious opposition, and go unpauisngly on, in the discharge of the solemn obligations of my official oath, doing always what I believe to be right. I shall obey the law, and do, as best I can, my duty to my fellow-citizens."

"Muggs' Landing"

"Muggs' Landing," a rollicking story of fun from beginning to end, with just enough plot to it to give a slight glimpse of seriousness, will be the attraction at the opera house to-night. As now presented "Muggs' Landing" is said to be one of the brightest, jolliest and most entertaining plays of its kind on the road. The famous "Muggs' Landing Quartette" in all the latest selections is one of the special features. The company contains many well known and popular artists.
